Summary of the views of Project Proponent on the issues raised by the Public Hearing meeting of M/s. Deepak Fertilizers and Petrochemicals Corporation Ltd., At: Village: Bagadia, Chaukiamata, Rangiagarh, Tehsil: Paradeep of Jagatsinghpur district for establishment of an Ammonium Nitrate Manufacturing Complex for Manufacturing of Technical Ammonium Nitrate-1000 MTPD and Ammonia-380 MTPD held on 13th October, 2017 at 11.00 am, At: Gram Panchayat Office, Kothi under Kujang Block, Paradeep of Jagatsinghpur district.

On behalf of the M/s. Deepak Fertilizers and Petrochemicals Corporation Ltd., At: Village: Bagadia, Chaukiamata, Rangiagarh, Tehsil: Paradeep of Jagatsinghpur district, Sri. Chitaranjan Panigrahy, Sr. Manager (Project) welcomed the public present on the public hearing and he has addressed the issues raised in the public hearing as follows:

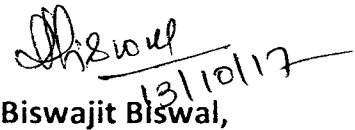

- 1. Employment:** He assured that the direct opportunities for the employment shall be offered in the project based on the qualification, experience and competency criteria as the plants are designated with highly mechanized automated systems. Preference shall be given to the local contractors based on the capability evaluation during construction.
- 2. Environmental and Safety:** He has stated that the process plant technology has been supplied by one of the world's renowned technology provider M/s. Casals from Switzerland. Further plant design shall be carried out by renowned M/S. EPOCM Consultant and it will be followed with the best engineering practice in the industry with improvised pollution monitoring and environmental control systems. The impact on air, water, land and surrounding during construction and operation phase will be mitigated through adequate control measures as listed in the EIA report.
- 3. CSR Activities:** He has assured that the company authority will create self-reliant society of youth, women and farmers development, having secured livelihood, the company is committed to facilitate street light, filtered water facility at schools, wash rooms & toilets facility at school, storm water disposal facility in certain villages and mobile services for prevention health care etc.

4. **Improved Farming and Agricultural Development:** He has assured that the company authority shall provide support in productive farming by updating the farmers knowledge on adopting new techniques. If required, training and guidelines will be provided on selection of right crop, use of mix of fertilizers through internal R & D facility and proper use of pesticides etc. for improving productivity under given situation.
5. **Improved education facilities:** he has assured to provide support in empowering women through education and women uplift by making them self-employed. Also they will conduct vocational skills development and give an edge for employability to economically weaker sections and training will be given to semi skilled labour for the better employability.

(SIT) probing the murder of journalist-turned-activist Gauri involvement of Naxals in the crime, suspicion of which first surfaced report from local officers and personnel from Dakshina Kannada, on Andhra Pradesh. Specialised in dealing with Naxals arrived here to help the SIT probe the murder. "One team which reached Dakshina Kannada said that here and they are in constant touch with their counterparts in the team from that state to join the investigation. We haven't ruled a senior officer told TOI. TNN

reports that they had preferred a CBI probe over the SIT investigation initiated by the state government. "Indira Lankesh and Kavita Lankesh told me that they have faith in the SIT probe and I have reassured them of the government's resolve to swiftly bring Gauri's killer to justice," Siddaramaiah said. He said Congress president Sonia Gandhi also spoke to him on Saturday and asked him to ensure the assailants are caught immediately. The government has sent a report on the incident to the Union home ministry. State chief secretary Subhas Chandra Khuntia has given a detailed account of the killing and the follow-up action taken by police.

M Kalburgi, The SIT is working from different angles and let the probe findings come out." confirmed on Saturday, the family members of Gauri met chief minister Siddaramaiah and cleared to kill Gauri.

Ref. DFPCL/PROJ/OSPCB/2017-18/054

3rd November, 2017

To,

The Regional Officer,
Odisha State Pollution Control Board
Paradeep.

Sub : Response to the points raised by Local people during Public Hearing held on 13th October, 2017 for our TAN Project being set up at Paradeep

Dear Sir,

Public Hearing (PH) for the proposed Technical Ammonium Nitrate (TAN) project of Deepak Fertilisers And Petrochemicals Corporation Ltd. (DFPCL) at Paradeep was conducted in presence of ADM, Paradeep, Regional Officer, OSPCB - Paradeep and other Govt. Authorities on 13th October 2017. During this PH, various opinions were received from the local people to which DFPCL would like to respond as below.

- 1) **Environment aspect** : There was a concern raised on environmental pollution with respect to air, water, land and surrounding during construction and plant operations.

DFPCL response:-

The process plant technology has been supplied by one of the worlds renowned technology provider M/s. Casale from Switzerland. Further plant design will be carried out by renowned EPCM consultant and it will be followed with the best engineering practices in the Industry with improvised pollution monitoring and environment control systems. The impact on air, water, land and surrounding during construction and operation phase will be mitigated through adequate control measures as listed in the EIA report.

DFPCL has got large experience and expertise of over 30 years in handling raw material and finished products coming out of this plant. Learning from the same will be used to ensure better plant design, safe & better construction methodology for pollution free project execution and better operating environment during plant operation.

- 2) **Concern over Employment to Localites**

DFPCL response: -

The direct opportunities for the employment shall be offered based on the qualification, experience and competency criteria as the plants are designed with highly mechanized and automated systems. Preference shall be given to the local contractors based on the capability evaluation during construction as they can hire semi-skilled/un-skilled labor from local population.

Contd.. 2 ..

3) **Peripheral development through CSR activities:**

DFPCL response: -

Deepak Fertilisers (DFPCL) has been enriching, nourishing and empowering millions of lives by effectively addressing issues that plague our society.

DFPCL through its CSR activities create self-reliant society of youth, women and farmers development, having secured livelihood, wherever DFPCL exists. DFPCL is committed to facilitate street lighting, filtered water facility at schools, wash rooms & toilet facility at schools, storm water disposal facility in certain villages and mobile services for preventive health care etc which came as a common request from most of the speakers.

4) **Improved Farming and Agricultural developments :**

DFPCL response: -

DFPCL will provide support in productive farming by updating the farmers knowledge on adopting new techniques. If required, training & guidance will be provided on selection of right crop, use of mix of fertilizers through internal R & D facility and proper use of pesticides etc. for improving productivity under given situation.

5) **Improved Education facilities:**

DFPCL response:-

Over the years DFPCL has provided support in empowering women through education and women upliftment by making them self-employed. DFPCL shall select and conduct courses in vocational skills development and give an edge for employability to economically weaker sections. Also training will be given to semi skilled labor for the better employability.

Thanking you,

Yours faithfully,

For and on behalf of Project Proponent (DFPCL)

Chittaranjan Panigrahi
