PROCEEDINGS OF THE PUBLIC HEARING MEETING HELD ON 15.12.2020 (AT 11.00 AM) IN BAUNSAMULI (HAMLET VILLAGE BATABAR) UNDER SAMIA R.I. CIRCLE IN JAJPUR DISTRICT FOR ENVIRONMENTAL CLEARANCE IN RESPECT OF M/S. ADISH MINERALS PRIVATE LIMITED FOR ESTABLISHMENT OF CHROME ORE BENEFICIATION PLANT OF 1,20,000 TPA THROUGHPUT CAPACITY AT BAUNSAMULI VILLAGE UNDER BADACHANA PS IN THE DISTRICT OF JAJPUR, ODISHA

The public hearing in respect of the project proposed by M/s. Adish Minerals Private Limited for establishment of Chrome ore Beneficiation plant of 1,20,000 TPA throughput capacity was held on scheduled date & time at Baunsamuli in the district of Jajpur with reference to:

- 1. EIA Notification S.O 1533 (E) Dtd. 14.09.2006
- II. Interim Operational Guidelines till 13th September 2007 in respect of applications made under EIA-1994

The Panel consisted of the following members:

- 1. Sri Mihir Prasad Mohanty, Additional District Magistrate, Jajpur, Odisha
- 2. Sri Pramod Kumar Behera, Regional Officer, State Pollution Control Board, Odisha, Kalinganagar.

Sri Mihir Prasad Mohanty, Additional District Magistrate, Jajpur, supervised & presided over the public hearing process and assisted by Sri Pramod Kumar Behera, Regional Officer, State Pollution Control Board, Kalinganagar, the representative of State Pollution Control Board, Odisha, Bhubaneswar.

At the outset, welcoming the members participated in the meeting Sri Pramod Kumar Behera, Regional Officer, State Pollution Control Board, Kalinganagar, gave a brief introduction about the guidelines to be followed for the public hearing in the light of EIA Notification, 2006 and interim operational guidelines till date, in respect of project proposed by M/s. Adish Minerals Private Limited.

Welcoming the public, Sri M. P. Mohanty. Additional District Magistrate, Jajpur welcomed the public and explained that the views, comments, objections and opinions of the public are necessary while considering the environmental clearance of the project. He reminded public that the Public Hearing meeting is being conducted following the COVID-19 guideline. He requested the public to follow the COVID guidelines during the public hearing process. He asked the project proponent to make a brief presentation before the public gathered in the meeting about the various aspects of the proposed project to be undertaken for better awareness of the public.

On behalf of the Project Proponent, Sri Mitu Behera, Representative of M/s Adish Minerals Private Limited addressed the committee members and assembled public and made a brief presentation about the salient features of the proposed project, environmental

Siace - 10 to Control Board, Odisho Yolinga Magar, Jajpur Cul 1 Add Distinguistrate management, pollution control measures, waste management, afforestation programme and various other peripheral development activities envisaged in the proposed project.

Then Sri Mohanty, ADM, Jajpur, requested the public to give their views, comments, objections and opinions on the proposed project.

The views expressed by various speakers on the proposed project are as follows:

1. Sri Batakrushna Nayak, Sarapanch, Salapada Gram Panchayat

Sri Nayak greeted the dais & gathering and informed that many small industries have been established in the area. He expressed his happiness that local public have been given opportunity to express their views on the proposed project. He expressed his grievance on pollution caused by the nearby sponge iron plant. Finally Sri Nayak told that they do not have any objection if the plant is established without hampering the local environment of the area and demanded local public health and benefit to be given priority before establishment of the project.

2. Sri Bulu Behera, Ex-Sarpanch, Salapada

Welcoming the public, Sri Behera informed that they were unaware of the pollution potential of the established sponge iron plant in the area and complained that ground water level has been depleted due to establishment of the sponge iron plant in the area. He demanded ground water protection, environment protection and local employment.

3. Sri Benudhar Biswal, Amiyajhar

Welcoming the panel & gathering, Sri Biswal informed that the public hearing has been conducted following the COVID-19 guideline. He complained that the existing sponge iron plant is not carrying out adequate development activity and employed few people as laborers in the plant. Sri Biswal expressed his support for the project and requested the company for local employment, road development and peripheral development activity in the area.

4. Sri Ashish Kumar Subudhi, Baunsamuli

Sri Subudhi welcomed the dais and public present in the gathering and informed that local people are facing several issues in the area. He intimated that the project proponent has committed that there will be no pollution by the beneficiation plant. He intimated that the area may face water pollution due to the beneficiation plant. Finally, he told that they do not have any objection for the project and demanded local employment and periphery development in the local village area.

5. Sri Bibelu Ranjan Subudhi, Baunsamuli

Welcoming the panel & gathering, he expressed his happiness on conduct of the public hearing and expressed his concern on the people to be affected by the project. He read over his written representation and submitted to the dais. Finally, Sri Subudhi supported the project and demanded the project proponent for no environmental nuisance in the area.

State Control & Control &

6. Sri Saroj Ranjan Subudhi, Baunsamuli

He expressed his grievance on the public hearing meeting arrangement. He opposed the project and informed that the local public will be affected by the project.

7. Sri Khirod Chandra Rout, Baunsamuli

Sri Rout told that the project proponent has committed that no pollution will be caused by the project. He requested the project proponent to give written commitment that the area will not be affected by pollution due to the proposed project.

8 people had registered their name to express their views, comments, objections etc. out of which 7 people deliberated.

The Panel has received 2 nos. of written representations during the hearing. Sri Mihir Prasad Mohanty, ADM, Jajpur asked the project proponent to present their comments to the people with respect to the demands raised by the public in the public hearing meeting. Sri Mitu Behera, Representative of the unit made the commitment on issues raised by the public. The statement of issues and concern of the public with comments of the applicant prepared in English & Odia language are annexed separately.

STATEMENT OF ISSUES AND DEMANDS RAISED BY THE PUBLIC AND COMMITTMENT OF THE PROJECT PROPONENT DURING THE PUBLIC HEARING MEETING HELD ON 15.12.2020 (AT 11.00 AM) IN BAUNSAMULI (HAMLET VILLAGE BATABAR) UNDER SAMIA R.I. CIRCLE IN JAJPUR DISTRICT FOR ENVIRONMENTAL CLEARANCE IN RESPECT OF M/S. ADISH MINERALS PRIVATE LIMITED FOR ESTABLISHMENT OF CHROME ORE BENEFICIATION PLANT OF 1,20,000 TPA THROUGHPUT CAPACITY AT BAUNSAMULI VILLAGE UNDER BADACHANA PS IN THE DISTRICT OF JAJPUR, ODISHA

ISSUES RAISED BY PUBLIC COMMITMENT OF THE PROJECT PROPONENT Sri Mitu Behera, Representative of M/s. Adish Minerals The issues raised at the public hearing meeting are as follows: Private Limited thanked the public for expressing their views on the proposed project and committed to certain 1. Environment Protection issues raised by the public are as follows: 2. Peripheral Development Sri Behera informed that the proposed project is a beneficiation plant and there will not be any Kiln in the plant and no flue gas will be generated in the plant. He further informed that the waste water to be generated from the chrome ore beneficiation will be adequately treated and again reused in the beneficiation plant. Tailings to be generated from the tailing pond of the beneficiation plant will be stored in the tailing pond with 6 years of holding capacity and then handed over to the TSDF, Sukinda. No waste water will be discharged outside the plant premises. Sri Behera also informed that rain water will be harvested for ground water recharge. The harvested rain water will also be used in the beneficiation plant. He informed that peripheral development work will be carried out as per the Government guideline. About 2% of the project cost will be utilized for peripheral development in the local area in 3 to 4 years.
