PROCEEDINGS OF THE PUBLIC HEARING OF M/S JAY MINERALS FOR CHANDANPUR DECORATIVE STONE (GRANITE GNEISS) MINES PRODUCTION OF OVER AN AREA OF 3.602 Ha (CLUSTER APPROACH, CLUSTER AREA 13.298 Ha) AT CHANDANPUR VILLAGE IN THE DISTRICT OF KALAHANDI CONDUCTED ON 15.09.2021 AT 11.00 AM IN CHANDANPUR VILLAGE, LANJIGARH UNDER KALAHANDI DISTRICT.

50

The public hearing in respect of the above project was held on 15.09.2021 as per the schedule and at the venue in accordance with the EIA Notification S. O. 1533 (E) dt. 14.09.2006. The public hearing with regard to date, place and time was announced in Public Address System in nearby villages of proposed project site and also published in Daily News Paper. The process followed for public hearing was adequate.

Er P Kar, Regional Officer, State Pollution Control Board, Rayagada welcomed the public to the hearing and briefed about the objectives, process & procedures followed for conducting such public hearing.

Shri Sarat Chandra Srichandan, OAS(S)Additional District Magistrate, Kalahandi highlighted on importance of such hearing & presided over the public hearing.

Sri Pradeepta Kumar Rajof M/s Jay Minerals and Sri Jagabandhu Bisoi, Environmental Consultant of M/s Kalyani Laboratory Pvt Ltd explained about the proposed project and briefed about the Pollution Control measures to be adopted in the Project.

The following is the summary of the public hearing proceedings, reflecting all the views and concerns expressed by the assembled public at the venue. It was recorded by the officials of the Regional Office, State Pollution Control Board, Odisha, Rayagada.

**1. Sri Bhubaneswar Patra, Jodabandh**

Sri Patra questioned on conduct of the hearing in absence of the villagers of the village where mines exist. Later he again back and expressed that his village Jodabandh is close to that mines and they are not satisfied with the commitments and demanded to stop the mines.

**2. Sri Debaraj Patra, Chandanpur**

Sri Patra expressed that the hearing got conducted suddenly and they could not be able to discuss the matter with others at their village. He informed that the hillock existssince long and came to know that lease has been given to man belongs to Bhubaneswar. He expressed his apprehension of getting cheated by the Project Proponent as Vedanta had done earlier. He urged that the villages, high schools, play grounds and agricultural fields exist surround to the hillock should not be affected due to the project. He explained the adverse impacts on agricultural land by the boulders due to blasting done by Paramount Company earlier and questioned that how the settlement will survive. He quired about the depth of the mines and apprehend if depth will be of 700 to 800 feet then how their village will exist. He opined that they will oppose the project if they face any problem.

He read out the representation given by ShibaramYubak Sangha, Chandanpur village and submitted it to the Chairman of the public hearing. Further he expressed that if the project will be beneficial for them, they will not oppose.

**3. SriLaxmidhar Santosh Ray, Jodabandh**

Sri Rayinformed that a large industry has been established in recent past in their locality and expressed his unhappiness about not fulfilling the commitments made by the company prior to

15.9.21

*[Signature]*

their establishment. He opined that forest, animals, lands and water get developed where the mines and minerals exist and urged that based on it decision should be taken for development of the locals and locality. He informed about the existence of the rock bed since ancient times and the local labourers depend on it for their livelihoods. Further he informed that previously that mines was leased to Essar and Paramount Company without their permission and the local labourers getting their livelihood by breaking the left out boulders of those companies. He expressed that if Government will leased out the mines to Jay Minerals then Company should give special attention for overall development of the locality and questioned on adequacy of provision of Rs 7 lakhs per annum in the report for development. He stressed upon the development of five "J" i.e. Forest, animal, water and land for getting consent of local peoples.

**4. Sri Abhimanyu Munda, Samiti Member, Bilatipadar, Champadeipur**

Sri Munda informed that they able to know regarding the lease of Jay Minerals due to conduct of the public hearing. He said that the Panchayat & its members have never received any communications from the company. He expressed that the villagers assumed that the Panchayat members selling their mines but in reality, they are not aware about the lease out of the mines. He further informed that due to announcement they came to know about the lease of the Chandanpur mines. He expressed his dissatisfaction over not getting any information regarding mines auction in pallisabha meeting and to ignore them. He compared it with Presidential rule. He suggested that proposal should pass from Panchayat to District level through Panchayat Samiti for their knowledge and dislikes the working style of officers.

**5. Sri Koushik Harpal, Chandanpur**

Sri Harpal informed that the stone mines exist in their village from their forefathers. He expressed that they had a meeting yesterday with the leadership of his village Gauntia and ShibaramYubak Sangha and questioned on responsibility and period of post maintenance of the solar light, water supply, school & road provisions to be given by the company. While explaining the problem of non-maintenance of the tube wells provided by Vedanta, He informed that the streams coming out of that mines hillock irrigating their land for crops and questioned on survivability of the local labourers depends on that mines for their livelihoods. He further raised the problem of the grazing of cattle if mines handed over to the lessee. He again quired about the terms, conditions and the benefits on which the mines can be given. He explained that if their paternal land sold once they could not be the owner of that land further. He cited the example of pollution problem faced by the villagers of Basantpada which is located 200 meters away from Vedanta Plant. He informed that yesterday his villagers took a decision not to give that mine. Further he added that they are not supporting the mines to be given on lease.

**6. Sri Sidharth Nayak, Pratappur**

Sri Nayak opposed the project and expressed that neither Government nor the Company can give the guarantee on mining. He expressed his apprehension regarding further damage and problem of the locality due to blasting in mines which may affect humans as well as cattle. He strongly opposed the project and expressed that he has no confidence on fulfilling the commitments made by any company. He further added that they are not interested for making one company rich at the cost thousand people. He again questioned on livelihoods of the local poor labourers as they depend on that mines for hand broken chips, metals etc. He apprehended that mine will cause the loss of their life & property and damage of their agriculture for which they are opposing.

7. Sri Jagadish Benia, Ex-Vice Chairman, Biswanathpur, Lanjigarh Block

Sri Benia expressed his dissatisfaction on Vedanta company for not keeping his commitments prior to the establishment of the company for which he is facing embracement before his supporters. He drew the attention of Pollution Control Board regarding dust nuisance on roads from the plant to Basantpada village. He welcomed the project provided that the demands made by the previous speakers should be fulfilled. He also supported the objections made by other speakers.

The Regional Officer, SPCB, Rayagada read over the issues raised by the public in the hearing. Sri Pradeepta Kumar Raj of M/s Jay Minerals responded to the issues raised.

The issues raised by the public and corresponding comments of the applicant were prepared in Odia and English and it is annexed with the proceedings as Annexure I & II respectively, list of the oral deliberators and participants in the hearing is annexed as Annexure III & IV respectively. One written representation received during public hearing is annexed as Annexure-V. The videography of proceedings are recorded and submitted as DVD (I).

Hearing ended with thanks to the chair.

**STATEMENT OF ISSUES RAISED BY THE PUBLIC DURING PUBLIC HEARING OF M/S JAY MINERALS FOR CHANDANPUR DECORATIVE STONE (GRANITE GNEISS) MINES FOR PRODUCTION OF OVER AN AREA OF 3.602 Ha (CLUSTER APPROACH), (CLUSTER AREA 13.298 Ha.) AT CHANDANPUR VILLAGE IN THE DISTRICT OF KALAHANDI HELD ON DTD.15.09.2021 AT 11.00 AM IN CHANDANPUR VILLAGE UNDER LANJIGARH TAHASIL IN DIST. KALAHANDI AND RESPONSE OF THE PROJECT PROPONENT.**

<b>Issues raised by the Public in Hearing</b>	<b>Response of the Project Proponent</b>
<b>Environmental Issues</b>	
<p>1. Protection of streams coming out of the mines hillock &amp; subsequent agriculture in the locality.</p>	<p>Opencast mining with semi- mechanised method will be followed with the use of machines like Excavator, Compressor, Wire Saw, Generator Set, Pump set &amp; Tippers for mining activities. Blasting will not be carried out for excavation of decorative stone.</p> <p>There are no perennial or seasonal streams coming out of the Mines hillock. Water accumulation is observed in the low lying area formed by earlier excavation for boulders and road metals before the grant of lease.</p> <p>We have proposed for rain water harvesting through land surface catchments both in paved and unpaved area. The dug out area will be developed in to a pond for rain water harvesting for use in Mines for drilling and water spraying in roads for dust suppressing and for developing green belt around the mines.</p> <p>The agriculture of the locality is mostly rainfed and mostly paddy is cultivated in the area.</p> <p>The surplus water will be provided to the local farmers for cultivation of seasonal crops in Rabi season.</p>

*Ajay Agarwal*

<p>2. Protection of villages, high school, play grounds and agricultural fields exist surrounding to the mines.</p>	<p>As per the air quality modeling result the maximum ground level concentration will be very less and it will be spread up to maximum distance of 400 mtr. from the lease area. So the impact on the village habitat, School will be negligible.</p> <p>As per analysis report of granite rock of the mine, it consists of mostly Silica, Calcium ,Iron,and Magnesium which are not toxic metals. So there will be no leaching of toxic metals to the surface as well as ground water body.</p> <p>During the rainy season the surface runoff from the mines may contain dissolved solids which will be channellized through garland drain and settled in the settling pits before discharge outside the lease area.</p> <p>Moreover ,we have proposed to arrest the surface rain water in to the rain water harvesting pond for use in mine.</p> <p>Further there will be proposal for regular monitoring of mine drainage water for any contamination during the operation of mines.</p>
<p>3. Protection &amp; development of Forest, animal life, water resources and land surrounding to mines area</p>	<p>Chandanpur Decorative Stone cluster Mines belongs to the non - forest govt. lands. Kissam of lands are Chattan under Abada Ajogya Anabadi. The mine quarry does not have any private land. Consequently, the apprehension of loss of cultivated &amp; grazing land does not arise as both the mine lease area are covered mostly by sheet rocks and boulders devoid of any vegetation over it. Only some small shrubs and herbs are seen in the both lease area.</p> <p>The 10 Km buffer zone of the lease area does not comprises of any eco-sensitive zone. Further the nearest forest Ambadola RF is located at a distance of 2.8 Km from the lease area. So the impact on the forest and wild life does not envisaged.</p> <p>Further for protection of domestic animals and in case any wild animals barbed wire fencing will be done along the active pits for protection of any mishaps.</p>

Ajay Agarwal

	<p>We have proposed planned plantation programme using the local species in the safety zone around the Mine and site camp area which will act as efficient biological filter against dust and noise.</p>
<p>4. Control of Dust nuisance during transportation activities</p>	<p>For control of dust following methods will be adopted :</p> <p>Wet drilling will be practiced and water spraying will be done in working areas. Maintenance of internal haul road and connecting transport road. Water sprinkling by water tankers in the connecting road and haul road Plantation along the safety zone and connecting road to arrest dust pollution. Transportation will be carried out by covered trucks.</p>
<p>5. Protection of the surrounding villages &amp; cattle from the adverse impact of blasting in the mine</p>	<p>No blasting will be carried out in the Mine. The stone blocks will be separated by line drilling and insertion of drill holes by crack seal powder to dislodge the blocks from mother rock. <b>Blasting is totally prohibited in decorative stone mines as it will develop crack in the blocks to be separated and as well as in mother rock resulting un-suitable for decorative stone.</b></p>
<p><b>Peripheral Development</b></p>	
<p>1. Development &amp; post maintenance of schools, provision of solar light, water supply &amp; roads in peripheral area</p>	<p>We have made provisions for maintenance of village road, solar street light installation, Solar water pump provision scholarship to students and supply of study materials to Chandanpur village primary school and committed to carry forward it for smooth functioning</p>
<p>2. Provision of adequate CSR fund for Overall development of the locality</p>	<p>We have definite plan for organizing health camps twice a year to provide free health check up facility in the locality.</p> <p>Drinking water facility through tube well shall be made for the needy area in consultation with villagers.</p> <p>All those CSR activities shall be carried out in consultation with co-ordination committee formed under Gram Sabha of Chandanpur village to get local villagers involvement and to monitor the success of the developmental work.</p>

*Nijay Agarwal*

<p>3. Protection of livelihoods of the local poor labourers and employment to the local people</p>	<p>The proposed project which consists of two nos. of mines pledges for the direct as well as indirect employment opportunity to local villagers. 28 nos. of labour and employees from each of the two projects will get employed.</p> <p>The mining operation with usher allied infrastructure development thereby will indirectly benefit for more than 100 peoples in the locality.</p> <p>Further, the mining operation will generate revenue in the form of royalty to Govt. Exchequer and the same will helps enhancement of the social and economical status of the surrounding area.</p>

# STATE POLLUTION CONTROL BOARD, ODISHA

(Department of Forest & Environment, Govt. of Odisha)  
Paribesh Bhawan, A/118, Nilakanthanagar, Unit-VIII, Bhubaneswar-751012

No. 11682/

IND-II-PH-901

Date : 09.08.2021

## NOTICE

It is brought to the notice of all concerned that M/s Jay Minerals has proposed to have Environmental Assessment for Chandanpur Decorative Stone (Granite Gneiss) Mines deposit over an area of 3.602 Ha. in the village Chandanpur, Lanjigarh tehsil of Kalahandi district (Cluster Apporoch, Cluster Area 13.298 Ha.) to obtain Environmental Clearance from State environment Impact Assessment Authority (SEIAA), Odisha. The proponent has applied to the State Pollution Control Board, Odisha, Bhubaneswar for a Public Hearing.

By virtue of Ministry of Environment, Forests & Climate Change, Government of India Notification No. S.O. 1533 (E) Dtd. 14.09.2006, the Board has been authorized to conduct environmental public hearing and as such invites suggestions, views, comments and objections on matters relating to environmental aspects of the proposed project from all the persons including bonafide residents, environmental groups and others located at the proposed site/sites of displacement/sites likely to be affected.

For the above purpose, a person will only mean:

- Any person who is likely to be affected by the grant of Environmental Clearance.
- Any person who owns his control over the project with respect to which an application has been submitted for environmental clearance.
- Any association of persons whether incorporated or likely to be affected by the project and / or functioning in the field of environment.
- Any local authority within any part of whose local limits is within the neighborhood, wherein the project is proposed to be located.

Persons as above who desire to submit their views, comments, objections etc. relevant to the project, may do so in writing within 30 days from the date of publication of this notice addressing the same to the Member Secretary, State Pollution Control Board, Odisha through Registered Post. Besides this, persons interested to submit their views relevant to the proposed mining project in writing or orally may also do so during the public hearing to be conducted on 15.09.2021 at 11.00 A.M. at village Chandanpur, Lanjigarh tehsil of Kalahandi district. Public hearing shall be conducted strictly observing guidelines contained in COVID - 19 pandemic restrictions issued by the MoEF&CC, Govt. of India vide OM No. 22-25-IA.III, dated 09.06.2021 as well as Govt. of Odisha.

Persons desirous of participating in the public hearing may go through the Environmental Impact Assessment (EIA)/Environmental Management Plan (EMP) of the said project which will be available at the following offices. Copy of the Executive Summary both in English & Odia is also available in the following offices & the same can also be downloaded from the website [www.ospcboard.org](http://www.ospcboard.org) free of cost.

- District Collector's Office, Kalahandi.
- District Industries Center, Kalahandi.
- In the office of the Chief Executive Officer, Zilla Parishad, Kalahandi.
- In the Head office of the State Pollution Control Board, Odisha, Parivesh Bhawan, A/118, Nilakanthanagar, Unit -VIII, Bhubaneswar -12.
- Regional Office, State Pollution Control Board, Odisha, Rayagada.
- Department of Forest & Environment (Environment), Govt. of Odisha, Bhubaneswar.

For any further clarification in the matter, the Regional Officer, State Pollution Control Board, Rayagada or the Member Secretary, State Pollution Control Board, Odisha at Bhubaneswar may be contacted.
