Sl. No.	Issues raised	Response of Project Proponent
Environmental Issues:		
1.	Measures to safeguard the environment during mining activities.	The Air & Noise Pollution due to drilling, blasting, crushing & screening and transportation will be taken care in a balanced manner. Wet drilling will be adopted to reduce dust generation during drilling, controlled blasting as per DGMS guidelines will be practiced for less noise and ground vibration as well as minimum fly rocks. Dry fog system will be provided in the crushing & screening plant for dust suppression. The mine haul road will be properly compacted with roller & grader and fixed water sprinkling will be installed on either side of the road. Water sprinkling will also be done extensively by mobile water tankers to reduce air born dust.
2.	Measures for protection of nearby River and Nallahs.	The dump will be properly terraced and garland drain, retaining wall and settling tank will be made at the toe of the dump to collect wash off. Runoff will be adequately treated and will be reused. There will be no discharge of runoff from the mine and treated water will be discharged from the mine in exigencies.
3.	Plantation for protection of environment.	The company will take up massive plantation by creating a thick green belt all around the lease and periodical plantation will be carried out inside the mine lease after commencement of mining operation.
Peripheral Issues:		
1.	Priority for locals in employment.	Priority will be given to employ local people directly/indirectly as per their skill and qualification considering time to time requirement of the company after commencement of mining operation

2.	Support for locals in transportation & other related business.	The Management will look in to the matter.
3.	Vocational training center for skill development.	The company will facilitate vocational training along with development of education, and transportation facility.
4.	Education facilities & provision of school bus.	Provision of school bus will be made.
5.	Drinking Water supply and Electrification of villages.	Provision of drinking water supply will be made by the company.
6.	Medical Facilities & Provision of Ambulance.	Provision of Ambulance and development of health Care facility will be taken up.
7.	Pension for old age & mobile tower facilities.	The company will request the network provider.
8.	Financial support for cultural & social programme.	Financial support for cultural and social programme will be provided.
9.	No restriction for collection of forest produce.	The company will approach the forest department in this matter.
