As per provisions of Biomedical Waste Management Rules, 2016 it is the duty of every occupier generating biomedical waste to take all necessary steps to ensure that biomedical waste is handled without any adverse effect to human health and the environment in accordance with these Rules. These Rules shall apply to all persons who generate, collect, receive, store, transport, treat, dispose, or handle bio-medical waste in any form including hospitals, nursing homes, clinics, dispensaries, veterinary institutions, animal houses, pathological laboratories, blood banks, ayush hospitals, clinical establishments, research or educational institutions, health camps, medical or surgical camps, vaccination camps, blood donation camps, first aid rooms of schools, forensic laboratories and research labs.
